

Summer Program

We invite first and second year students to apply to our Summer Program, taking place in Stockholm June 7 – 18, 2021.

Over the course of two weeks, program participants will sharpen their problem solving abilities, getting McKinsey tools through trainings and gain first-hand insights into a career in management consulting. Alongside of getting to know the people at McKinsey better, we offer a one year mentorship opportunity after the program.

Apply by March 1 at:
[McKinsey Summer Program 2021](#)

We welcome applicants from any discipline or academic background. Please note that the program will be virtual if circumstances don't allow us to meet in person.

At your best.
