

# Leadership Program for Women 2023

We welcome you to build an excellent foundation to grow as a leader.

Would you like to reflect on and develop your personal leadership style in an exclusive network of future women leaders?

Take this opportunity to focus on your personal development and be part of our three interactive half-day sessions virtually and in Stockholm during spring 2023. You will also meet inspirational speakers sharing their approach to leadership in challenging times.

We welcome applications from students in year 2–4 in all disciplines who identify as women or non-binary.

[Apply here by December 15](#)
